Walkable Places Program

Re: Support for Walkable Places Application – Washington Avenue Corridor (Henderson St to Sabine St, including Center St and Decatur St segments)

To Whom It May Concern,

I am the owner, or authorized representative of the owner, of the property located at:

I am writing to express my support for the proposed Walkable Places application covering street segments generally located:

- Along **Washington Avenue between Henderson Street and Sabine Street**, and
- Including portions of **Center Street and Decatur Street between White Street and Silver Street**

I support the application as a whole and the vision of encouraging more walkable, pedestrian-oriented development across these connected segments.

I understand that the Walkable Places designation establishes development standards intended to improve safety, accessibility, and long-term vibrancy of the corridor.

Sincerely,

Emmanuel Nunez,

Emmanuel Nunez
